PLANTATION SHUTTER

2009

For more information ask our sales team for the Blinds technical manual.

Plantation Shutter

MATERIAL

Wooden shutter

Wooden shutter offers inimitable flexibility when it comes to designing and styling. Wooden shutters can be sanded, painted and stained to any colour of choice.

PVC shutter

PVC has for long been the preferred shutter material for many households. PVC is the best option if you are looking for a shutter material that is resistant to moisture and heat.

Aluminium shutter

Aluminium is one of the most popular construction materials today. Aluminium shutters are strong and lightweight, fireproof, waterproof, anti-theft.

Embrace Your Individuality

All you need to do is send us the color card you need, or choose from the international color card books: Dulux, RAL, Little Greene, Farrow&Ball, etc. We match the color of your choice and send it to you for approval. We offer customized color shutter with no minimum order quantity.

SHUTTER TYPES

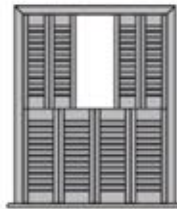

Full Height Shutters

A practical and elegant window treatment, full-height shutters help you keep your room cool when it's hot outside and warm when it's cold, as well as providing extra security, privacy and soundproofing.

Tier on Tier Shutters

Tier-on-tier window shutters give complete window coverage while letting you open the slats of the top and bottom halves independently. You can enjoy light and privacy in any combination you choose.

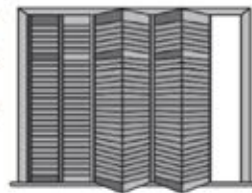

Cafe Style Shutters

Designed to cover only the lower half of your window, cafe style shutters are a stylish choice for any body who wants to prevent passersby from peering into your living spaces while still letting in plenty of light.

Track Shutters

Track shutters can be fitted to your space in one of two ways. With the by-pass system, panels glide past each other on their own tracks, whilst with the bi-fold, they simply fold out of the way.

SHUTTER TYPES

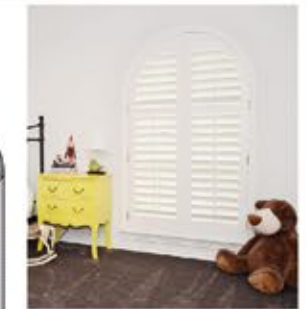

Bay Shutters

Perfect bay window shutters make the most of the natural light and privacy. Window shutters maximise the space inside your room while adding a layer of insulation.

Special Shape Shutters

Whatever the peculiar shape of your window or doorway, we'll custom-make a hardwood shutter to fit. Arches, hexagons, circles, triangles, sunbursts, irregular angles - the list goes on.

Additional Products

Shutter With Blackout Blinds

A blackout blinds can be ordered to fit behind our plantation shutters, allowing you to achieve total room darkness. Ideal for bedrooms, media rooms or nurseries. The honey-comb design completely blocks out the light with each cell having an internal foil wrap, creating both light block out and thermal insulation. The insulating characteristics help keep the heat out in summer and the warmth in during winter.

Shutter With Screen Shade

Screen Shade With Shutter is a special gauze mesh installed on the window, the main purpose of which is to prevent mosquitoes and other insects from entering the room, while maintaining ventilation.
