# 罗马帘 Roman shade

- 我们常规生产的两种罗马帘类型 The two types of Roman shade that we usually produce:

## 磁吸罗马帘 Mag Roman shade

To operate, simply lift the shade to several pre-fixed levels and the strong magnets will easily snap to the desired height. They are our modern twist on a timeless design. Perfect for elevating any room to the next level – whether it's a private study, kitchen, bedroom or living room. 操作时，只需将遮阳帘提升到几个预先固定的水平，强力磁铁就会很容易地卡到所需的高度。它们是我们对永恒设计的现代扭曲。非常适合将任何房间提升到一个新的水平——无论是私人书房、厨房、卧室还是客厅。

## 拉珠罗马帘 Chain Roman shade

Chain roman shades are essentially a drapery fabric that hangs over a window and can be raised and lowered via a lift mechanism, much like a roller shade. The elegant folds of fabric seen when the roman is fully opened cap any window extremely well. 拉珠式罗马遮阳帘本质上是一种挂在窗户上的窗帘织物，可以通过升降机构升降，很像卷帘。当罗马人完全打开时，可以看到优雅的织物褶皱，非常好地盖住了任何窗户。

## Different colors roman shade samples

### Details

### Inside Mount

Roman Shade Width = Window Opening Width - 1/8"

Roman Shade Height = Window Opening Height

Installation method: top (window frame) installation

Notes: Inside mounted shade need to be reduced width to ensure that the head rail can be placed and installed. If your window depth is less than 2 and 3/4 inches, please choose outside mount.

### Outside Mount

Roman Shade Width = Window Width + 2-6"

Roman Shade Height = Window Height + 5-8"

Installation method: Side (wall/door) installation

Notes: Outside mounted shade requires extra width and length to ensure that the entire window is covered.

# 纸帘 Paper shade

- 我们常规生产的纸帘 The paper shade that we usually produce:

库存尺寸: 36\*72 英寸和 48\*72 英寸 (可定制) Stock size: 36\*72 inch and 48\*72 inch (Customizable)

3M 胶带: 根据增加的成本/报价使用缠绕胶带。(比初始样品宽 0.5cm) 3M Adhesive Tape: Winder tape to be used as per the increased costing/quotation. (0.5cm wider than initial sample)

纸材料: 食品级厚白纸, 重量: 80GSM。安全无毒, 透气性好 Paper material: Food grade thick white paper, weight: 80GSM. Safe and non-toxic, with good air permeability.

夹子: 材料-塑料/ABS 树脂 (每个纸帘包含两个夹子, 根据订单颜色匹配, 可定制 logo) Clips: Material - Plastic/ABS resin (Each shade contains two chips, matched according to the order color, Customizable logo)

White plastic clips

Black plastic clips

Stainless steel metal clip

# 安装步骤 Installation Steps

- 易于安装，无需在窗口上打孔 Easy to install no-punch stick-on blackout windows

		
<p>1.measure out the window/door dimensions</p>	<p>2.apply double sided tape and out to size</p>	<p>3.peel off the double- sided tape</p>
		
<p>4.attach the curtain to the frame</p>	<p>5.press the curtain firmly by hand to reinforce it</p>	<p>6.curtain installation is complete</p>
		
<p>7.use plastic clips to increase some window space</p>		

## 单支不同包装方式 Each Pcs Different package

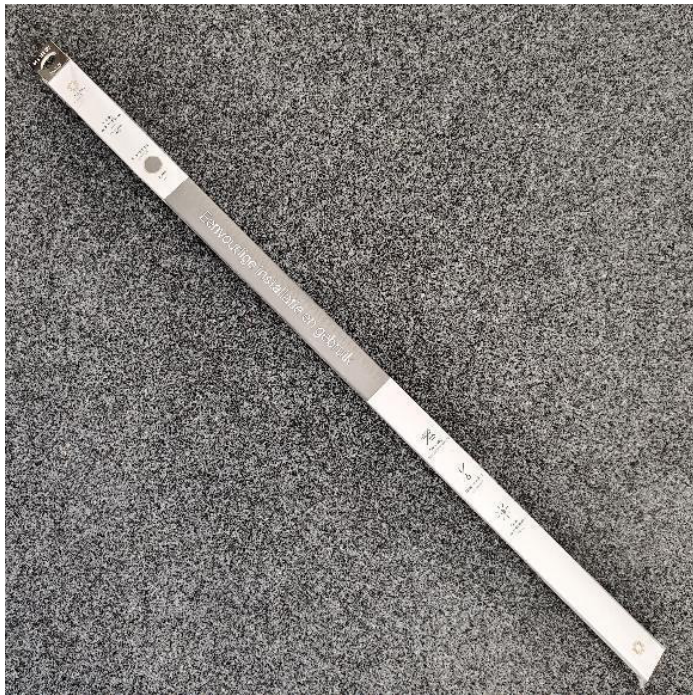

PE 袋包装 PE bag Package

PE 盒包装 PE box Package

彩盒包装 Color Box Package

您可以定制任何包装，我们工厂有专业的美工为您服务。

You can customize any packaging, and our factory has professional art designing it for you.

你提出想法，我们来帮助你实现它。

You propose an idea, we will help you achieve it.

## 不同包装方式 Different packing

1. 常规包装方式, 36 支 PE 袋单支入一个外箱. Conventional packaging method, 36pcs PE bags are packed / box.

五层瓦楞纸箱, 防止货物受损 Five layer corrugated cardboard box to prevent goods from being damaged.

2. 商超常用类型, 6 支入一盒, 每箱内一共 12 盒, 每箱共 72 支.

Commonly used types of supermarkets, 6pcs/carton, with a total of 12 carton/box, with each box is total 72 pcs.

## 生产车间 Workshop production

- 车间产能：目前车间总产能为 3000 件/天。单机每天生产 1500 件，目前有两台设备。

Workshop capacity: Currently, the total workshop capacity is 3000pcs/day. A single machine produces 1500pcs/day, and currently there are two devices.
