New Testing Room Center will be ready 2 months later

We hebben geïnvesteerd in een ruimer testcentrum en kantoorruimte. Dit betekent meer ruimte voor nieuwe testapparatuur en een meer comfortabele en ruime werkomgeving voor onze teams.

We hebben de meest geavanceerde testapparatuur en technologie geïntroduceerd om ervoor te zorgen dat onze producten altijd van de beste kwaliteit zijn. Deze nieuwe apparatuur stelt ons in staat om nauwkeurigere en efficiëntere tests uit te voeren, waardoor onze producten aan de hoogste normen voldoen.

De nieuwe lay-out van het kantoor is ontworpen om de communicatie en samenwerking tussen teams te vergemakkelijken. We creëerden open workspaces en vergaderzalen die teams meer mogelijkheden bieden voor interactie en communicatie, wat innovatie en samenwerking bevordert.

In 2024, as a leader in the field of paulownia supply, Huasheng is determined to pursue more and better paulownia supply to meet the market demand for high-quality logs. Driven by this mission, the General manager of Huasheng personally received a supplier from southern China with a large number of paulownia forest resources.

In this HOME FURNISHING EXPO SHENZHEN, Huasheng Industry domestic team lounge also achieved satisfactory results in the exhibition. Huasheng Industry actively displayed its latest shutter and blinds series products, attracting the attention of many domestic and foreign audiences. Not only in the international market, but also in China, more and more people are inquiring about shutter and blinds products, and I believe that the domestic market will also achieve better development.

Technical Manual

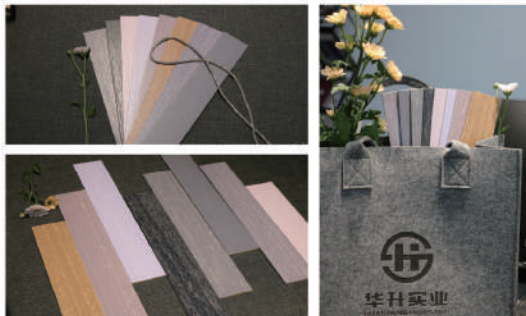

Our technical manuals provide detailed guides and demonstrations to help you navigate product information easily. Emotional ones can connect with your sales
